

HILLCREST

A BEACON OF WORLD-CLASS
HEALTH CARE IN YOUR COMMUNITY

UC San Diego Health

FROM SAN YSIDRO TO
OCEANSIDE AND FROM ALPINE
TO IMPERIAL BEACH.

FROM SIMPLE TREATMENTS
TO LEADING-EDGE THERAPIES.

FROM CLINICAL TRIALS
TO CLINICAL PRACTICE.

**FROM THE BEGINNING,
UC SAN DIEGO HEALTH
HAS BEEN AT THE
HEART OF SAN DIEGO.**

UC San Diego Medical Center – Hillcrest overlooks San Diego’s most iconic landmarks, including downtown, the Coronado Bay Bridge, Point Loma and Mission Bay, positioning us to provide world-class care to every member of our diverse community.

And as the only academic health system in the region, we are acutely aware of our responsibilities to maintain the health of our community, to train compassionate physician-scientists, and to drive breakthroughs in health care.

Join us as we transform the landscape of care in San Diego and beyond.

A BRIDGE BETWEEN INNOVATION AND CARE

UC San Diego Medical Center–Hillcrest is a hub of excellence, providing America’s Finest City with America’s finest health care. As new innovations in technology and medicine have developed and evolved, both at our facilities in Hillcrest and just a few miles away at our La Jolla campus, our multidisciplinary teams in Hillcrest have delivered these breakthroughs directly to our patients. From the region’s first kidney transplant in 1968 to testing leading-edge antiviral drugs for treating HIV/AIDS in the 1980s to launching a number of first-in-human stem cell trials to treat diabetes, spinal cord injuries, and leukemia in the last decade, UC San Diego Medical Center–Hillcrest has been — and will be — the destination for better care that just gets better.

WORLD-CLASS CLINICAL CARE FOR OUR COMMUNITY

As we look to the future, we remain committed to providing the entire San Diego community with world-class care on a local scale. Our ambitious program to rebuild UC San Diego Medical Center–Hillcrest from the ground up will provide all-new facilities, all-new technology, and a streamlined layout to ensure an effective continuum of care. Increased capacity, expanded care offerings, and novel opportunities for community engagement will allow us to serve our community with the same passion and energy we have always had.

A LEGACY OF CULTURALLY SENSITIVE CARE

Rebuilding in Hillcrest affords UC San Diego Health an opportunity to continue investing in our legacy of caring for our diverse community in the heart of San Diego and beyond. And we have a transformative vision for reimagining health care from the ground up, starting with an immersive medical education that inspires a new generation of health care leaders to create a more equitable, more accessible, and more inclusive system for every patient.

THE FUTURE OF CARE

*So, when you see old buildings make way for new ones, know that’s our way of providing you with better care. When you see new treatment options available just a few blocks away, know that’s our way of ensuring you can count on us, no matter your health care needs. When you see a new generation of health care leaders emerging, know that’s our way of sharing our commitment to compassionate care with the world. **And when you look at Hillcrest and you see a beacon of world-class health care, know that what you see is UC San Diego Health.***

1

NUMBER ONE HOSPITAL IN SAN DIEGO

ONE OF TWO ADULT LEVEL I TRAUMA CENTERS IN THE REGION

THE AREA’S ONLY REGIONAL BURN CENTER

ONE OF THE TOP HIV/AIDS CLINICS IN THE NATION

Help us continue the nontradition.

At the University of California San Diego, challenging convention is our most cherished tradition. Your support for our efforts to reenvision clinical care delivery in Hillcrest also supports the Campaign for UC San Diego – our university-wide comprehensive fundraising effort concluding in 2022. Together, we will continue our nontraditional path toward revolutionary ideas, unexpected answers, lifesaving discoveries and planet-changing impact.
