

MOORES CANCER CENTER AT UC SAN DIEGO HEALTH

DELIVERING INNOVATIVE CARE THAT IMPROVES LIVES

Groundbreaking research, exceptional care and a world-class oncology education program. Together, these attributes make Moores Cancer Center at UC San Diego Health among the very best cancer centers in the nation and a beacon of hope for patients who travel here for care. Established in 1978, our center is the region's only Comprehensive Cancer Center — a designation the National Cancer Institute reserves for centers with the highest achievements in cancer research, clinical care, education and community contributions.

UC San Diego Health is a national leader in **bench-to-bedside medicine**, with deep expertise in precision medicine, stem cell research and immunotherapies. Our multidisciplinary teams of specialists collaborate to create individualized treatment plans, which may include novel therapies only available through an academic medical center. Our state-of-the-art facilities unite research and patient care, extending our reach through oncology clinics across San Diego.

Your gift can accelerate new discoveries, expand supportive care programs, train the next generation of physician-scientists and build the labs and clinics where breakthroughs happen. With your partnership, we can redefine what's possible in cancer prevention, treatment and healing.

ONLY NCI CANCER CENTER

The only National Cancer Institute (NCI-designated) Comprehensive Cancer Center in San Diego

1ST

UC San Diego Oncology is ranked 1st in San Diego and 42nd nationally by U.S. News & World Report (2024-25)

3,005

Students, postdocs, residents and fellows (across UC San Diego Health Sciences)

6,000+

Patients receiving treatment in clinical trials (across UC San Diego Health Sciences)

At UC San Diego, we believe that what we don't know today will forever change our tomorrows. Empowered by generosity and fueled by curiosity, we are unafraid to chase the unknown — to ask the questions no one has asked before and to push the boundaries of possibility. Together, we unite diverse people and unconventional perspectives to propel limitless impact. Because we know that when we come together, nothing is beyond us.

Kimberly Peters is a patient at Moores Cancer Center, where clinical trials are a lifeline for those whose cancer does not respond to standard treatments.

Together with your philanthropic support, we can continue to propel possibility, to be the place where compassionate healing meets medical innovation as a foundation for world-class care, here for our patients.

PHILANTHROPIC OPPORTUNITIES

ACCELERATED DISCOVERIES

Philanthropy helps advance new discoveries and move promising research, new treatments and standards of care. Your giving may also fund pilot projects, support team science projects and invest in faculty through endowed chairs and research support. [Give to the Moores Cancer Center Discovery Fund for Cancer Research.](#)

ENHANCE THE PATIENT EXPERIENCE

Moores Cancer Center offers a range of supportive care programs and services to help patients, their families and caregivers at every stage of their cancer journeys. These programs include patient navigation services, art and wellness programs, patient and family housing for those who must travel far for care, counseling and emotional supportive services, and new digital tools and resources. [Give to the Center for Supportive Care at Moores Cancer Center.](#)

FOSTER EDUCATION, FELLOWSHIPS AND MENTORSHIP

As an academic medical center, UC San Diego not only provides exceptional care but also trains new physicians and physician-scientists to practice medicine and conduct research that paves the way for breakthroughs. Our translational and clinical fellowship programs provide fellows and trainees with opportunities to work alongside medical experts and researchers while enhancing research and care. [Give to the Moores Cancer Center Fellowship, Education and Training Fund.](#)

EXPAND ACCESS TO CARE

One of UC San Diego Health's top priorities is our new McGrath Family Outpatient Pavilion at our Hillcrest campus — the first of six new buildings that house specialized clinics, outpatient surgery operating rooms and comprehensive cancer services. Our enhanced medical center will better enable us to meet the health care needs of San Diego's diverse and growing population. Clinics in La Jolla's Koman Outpatient Pavilion and across the region in satellite facilities ensure ready access to patients and families across the region. **Naming opportunities are available to recognize donors who invest in this important priority.**

In addition to the above initiatives, we are advancing bold, transformational endeavors in areas such as early cancer detection, prostate cancer, and myriad other areas of cancer research and care. In partnership we can work with you to align your philanthropic interests with opportunities that truly make a difference — enabling impact that reflects your values and changes lives.
