

# STUDENT SUPPORT AND SUCCESS

## EMPOWERING POSSIBILITY

**We make changemakers.** At UC San Diego, we embrace a culture of exploration and experimentation. And we do it by looking at the world in a different way, with the courage to dissect convention and shake up the traditional. For more than 60 years, we've been educating, encouraging and creating the next generation of maverick artists, entrepreneurs, researchers, policy-makers, scholars, engineers and healers.

**But it takes more than hard work to get to graduation day.** For many students and their families, the cost of a top-tier education feels out of reach. Our student support efforts reframe possibility and find creative solutions — including scholarships and fellowships — to increase access to UC San Diego.

Ensuring the success of all our students means offering a comprehensive network of academic, social and personal support. Student success programs provide high-impact resources that help all our talented students graduate on time, develop leadership skills, and grow into the changemakers of the future.

**Our goal?** To make learning affordable and accessible to all. Each of our students has the potential to change the world. We foster the curiosity and innovative spirit that allow them to do just that.

At UC San Diego, we believe that what we don't know today will forever change our tomorrows. Empowered by generosity and fueled by curiosity, we are unafraid to chase the unknown — to ask the questions no one has asked before and to push the boundaries of possibility. Together, we unite diverse people and unconventional perspectives to propel limitless impact. Because we know that when we come together, nothing is beyond us.
